Research statement and publications

My research focuses on understanding the wealth of **social relationships** people have (e.g., romantic relationships, friendships, family relationships) and understanding the role of **individual differences** (e.g., personality, height, hormones,...) for these social relationships from an **interdisciplinary framework**. To this end, I conduct survey, observational, and experimental studies, next to analysing secondary datasets. Furthermore, I am interested in (improving) **methodology and statistics** and frequently collaborate with others on diverse topics.

Here are what I personally consider to be my five best publications:

> Stulp, G., Buunk, A.P., Verhulst, S. & Pollet, T.V. (2015), Height Is Positively Related to Interpersonal Dominance in Dyadic Interactions. *PLoS ONE, 10*, e0117860.

(Co-)Supervision of Ph.D. students

I am involved in the external supervision of other students, here I list the students at the universities I worked at. I am currently also an external advisor on a Ph.D. projects at TU Delft. I have been part of external Ph.D. committees for University of Essex, University of Groningen, University of Helsinki, University of Sterling, and University of Vienna.

Current: Alexandra Thompson.

Graduated 2017: Zoi Manesi VU University Amsterdam

Graduated 2017: Jill Knapen VU University Amsterdam

Graduated 2017: Nancy Blaker, VU University Amsterdam

Graduated 2013: Kelly Cobey, University of Groningen

Graduated 2013: Gert Stulp, University of Groningen

Graduated 2012: Liga Klavina, University of Groningen

Awards/nominations.

Paper on intralocus sexual conflict with G. Stulp as lead author included in Faculty1000.

IPUMS paper finalist in 2009. (Top 10 paper in 2009 based on IPUMS data)

Nominated as Honorary Belgian American Exchange Foundation (BAEF) Fellow (2008).

Teaching.

I have been teaching for over a decade in various roles, my courses are generally positively evaluated. I have three certificates demonstrating my teaching qualities: 1) Postgraduate certificate for Teaching (Newcastle University), 2) BKO: Qualification for Teaching by Dutch Universities (VU University Amsterdam)) and 3) HEA Fellowship (Northumbria University). Most of my teaching revolves around evolutionary and social psychology, next to methodology, and is taught in English.

I acted as a Director of Learning and Teaching (Experience) at my psychology dept (2017-2019). This involves coordination of induction, coordination of open days, leading staff-student programme committees, liaising with programme leaders on student experience, coordinating our departmental NSS strategy. I also represent our department at relevant faculty and university-wide meetings.

The most gratifying aspect of my teaching is that several of the students, which I supervise produce work which has been subsequently published in peer reviewed journals (e.g., papers 43,46,47,53,61,64,67).
